

Newsletter from March 17th, 2022

Dear folks,

We have really good news. Michael is teaching 2 courses this year in Switzerland. It's clear from the condition of the client's cardiovascular systems that specific metabolic protocols for biodynamic treatment are now necessary. Michael will teach 3 protocols in both same courses.

It is unfortunate that he will not teach in Germany this year. Michael and his wife Cathy travel together as many of you know. Both of them have limitations that are quite natural but none the less limit their ability to travel between a lot of countries.

The course registration is available at this [link](#). Only 24 students will be accepted in each class. This means that your acceptance is based on "first come - first serve" with the time code on your email including your registration as pdf. There are also other opportunities to receive this information of the metabolic protocols. Michael will be doing several webinars – please click [here](#) for further information.

For those of you who are still interested in receiving a diploma please click [here](#) for details. The diploma program will stop at the end of 2023.

We know the world is still upside-down. It is very important to acknowledge the emotions especially the grieving over what was lost with COVID and now war in Ukraine. Although we work on the body it is clear that we must all have a spiritual center and be compassionate to ourselves and all our inner conflicts in order to help those around us with the same conflicts and chaos.

The 2 classes planned for Switzerland will be the first on-site classes Michael will be teaching for 3 years. These [classes](#) will be special because our biodynamic world is evolving to meet the needs of the contemporary client. We hope to see you there.

Much love from Michael and Almut
